

ONAIR TEAMS WITH REED EXHIBITIONS TO LAUNCH PORTAL AT AIRCRAFT INTERIORS 2010 IN HAMBURG

First Aircraft Interiors portal will keep attendees up-to-date throughout their time at the event

Geneva, Switzerland, 6th May 2010. OnAir, the global inflight and on-board connectivity provider, announced today that it has teamed up with Reed Exhibitions, the world's leading organiser of trade and consumer events, to develop and launch a mobile portal supporting Aircraft Interiors Expo held at the Hamburg Messe in Germany from May 18th to 20th 2010 – the first time a portal has been used for the exhibition.

Accessing the portal directly on their smart phone, Aircraft Interiors Expo attendees will have the opportunity to keep up-to-date and fully informed on news and show information. Visitors will be able to view daily schedules, be kept aware of any changes to the programme, find an exhibitor, or simply navigating around the exhibition itself by simply visiting www.aixnow.com/

Benoit Debains, OnAir CEO, expressed delight about co-operation with Reed Exhibitions and with the portal in general: “Staying up-to-date on information via the portal will ensure delegates make best use of their time during the exhibition. It gives them extra flexibility and more of an opportunity to plan – the same benefits as airline or cruise-ship passengers get when they use the OnAir service as they travel.”

Reed Exhibitions spokesperson Ian Crawford, Group Exhibition Director said: “The portal adds a new dimension to the show and helps raise our service level to Aircraft Interiors Expo attendees – something we are always seeking to achieve.”

OnAir is located on Stand number Hall B6 StandG30b, where the company is showcasing its full onboard connectivity offering.

OnAir has also developed a portal to support the 10th annual EBACE event held at Geneva's Palexpo a couple of weeks ago.

About OnAir

OnAir provides industry-leading, on-board connectivity solutions that enable passengers to stay connected while they travel, and airlines and shipping lines to differentiate themselves through offering distinct services to customers. Present aboard airlines on four of five continents, OnAir provides the only air-travel industry sponsored solution for commercial airlines, private and corporate jets, Airbus and Boeing aircraft, and for long and short-haul flights. OnAir is the only provider of services based on SwiftBroadband, the latest high-bandwidth satellite technology from Inmarsat, which offers GSM and GPRS for voice, data and Internet.

OnAir was incorporated in February 2005 and is owned by SITA, the leading IT solutions provider to the air transport world and Airbus, the leading aircraft manufacturer. OnAir is a member of the GSM Association and an Inmarsat Distribution Partner for SwiftBroadband services.
